PROFESSIONAL SUMMARY

Results-driven **Full Stack Developer** with hands-on experience designing and delivering scalable web applications, backend systems, and cloud-native architectures. Skilled in **React JS, Node.js, Laravel, PHP and AWS**, with a strong focus on code quality, performance, and maintainability. Adept at building secure APIs, automating CI/CD pipelines, and deploying cloud solutions that drive business impact. Brings a pragmatic, detail-oriented approach and a passion for clean, efficient, and reliable software delivery.

WORK HISTORY

Argusoft India Pvt. Ltd. - Gandhinagar, India

Solution Analyst

Jul 2025 – Current

- Designed and implemented **data computation and score calculation workflows** to enhance accuracy, scalability, and consistency across business analytics modules.
- Built an **automated meeting and notification system** leveraging background task scheduling and mail queues for reliable communication and timely reminders.
- Led a **content migration initiative** by analyzing legacy CMS structures and developing **automation scripts** to transfer high-volume, multilingual content with full data integrity demonstrating strong analytical ability and fast adaptation to new systems.
- Collaborated on **performance tuning and feature enhancements** for enterprise-grade digital platforms, optimizing responsiveness, stability, and maintainability of live production systems.

Programmer Analyst

Jul 2023 – Jul 2025

- Engineered and deployed complex full-stack modules for **enterprise-grade web applications** using **React JS, AWS Amplify, Cognito, and Stripe**, covering authentication, subscription, and analytics workflows.
- Built and optimized **modular, reusable frontend components** and **hooks** following the **Presenter-Container architecture**, improving scalability, maintainability, and UI performance.
- Designed and implemented **real-time analytics dashboards** with **React ApexCharts and AWS Kinesis**, enabling live data visualization and improving performance through optimized data fetching.
- Delivered **CI/CD integrations and AWS-based deployments** (S3, CloudFront, Route 53) in collaboration with DevOps, ensuring seamless, version-controlled releases with zero downtime.
- Architected and implemented **Azure Mailer integration** with **dynamic notification templates, email delivery tracking via webhooks**, and **resend queues**, enhancing reliability, flexibility, and traceability of automated communication workflows.
- Modernized legacy **Laravel (PHP)** systems by upgrading frameworks, refactoring controllers, optimizing queries, and automating **Azure Storage migrations** to ensure data durability and maintainability.
- Built an **interactive GIS dashboard** leveraging **Next.js, Mapbox, and GeoServer**, implementing **layered spatial visualizations** including heatmaps, line maps, and boundary overlays for real-time geographic insights.
- Recognized by mentors and awarded **Employee of the Month** for strong ownership, code quality, and proactive problem-solving across full-stack initiatives.

Programmer Analyst Intern

Jan 2023 – Jul 2023

- Worked on a Billing Module System using **Vue JS and Node/Express**, focusing on invoice flows and API integration.

PROJECTS

CricWale | Live at www.cricwale.in

Designed and developed the complete frontend architecture in **React JS** for a live cricket web app offering blogs, news, live scores, and series data. Implemented real-time match updates, responsive UI, and efficient state management using React Hooks and Context API.

EDUCATION

Bachelor of Technology | Computer Science Engineering

2019 – 2023

Shivajirao Kadam Institute of Technology & Management • RGPV • **8.40 CGPA**

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, SQL, PHP, Python

Frontend: React JS, Redux, Context API, HTML5, CSS3, Bootstrap, Tailwind, Vite

Backend: Node.js, Express.js, Laravel (PHP), RESTful APIs, Authentication, Authorization

Databases: MySQL, PostgreSQL, Query Optimization, ORM

Tools: Git, GitHub, Postman, VS Code
